

Coat Hooks Instructions

Warning: Screws and wall fixings are not included with this product, please use appropriate fixings for your needs and seek professional advice where necessary.

1. When fixing the key hooks to the wall, place a spacer behind each screw hole between the wall mounted plate and the wall.

Spacers

Wall Mounted Plate

Hook

2. Attaching Hooks:

- Turn the hook 90 degrees and slot in the slider bar.
- Slide to either end of the slider bar and twist 90 degrees so that the hook is in the correct orientation.
- Slide it back along the slider bar.

Slider Bars

Repeat step 2 to attach the rest of the hooks or reverse the process to remove them. We recommend placing the smaller hooks in the top slider bar and larger hooks on the bottom.
